Respected Sir,

Greetings from ICAR KVK Karur!

We thank you very much for deputing your Scientist (Entomology) Dr K Selvaraj to handle a technical session and demonstrate the application techniques of the entomopathogen for the management of Coconut Rugose spiralling whitefly at Pazhmapuram village, K. Paramathy block, Karur district on 8.10.2021. The programme was well received by the farmers and your Scientist has covered the subject extensively. The initial feedback from the demonstration farmer is also encouraging. In this context, we request you to kindly arrange for training of about 10 - 20 farmers on low cost mass multiplication of the entomopathogen - *Isaria fumosorosea* (ICAR-NBAIR pfu-5) at your Centre or at our KVK Plant Diagnostic Lab. Kindly do the needful. Looking forward to your kind cooperation

Thanking You

Yours faithfully

J. Diraviam

Respected Sir,

Greetings from ICAR KVK Karur!

We hereby inform you that the problem of rugose spiralling whitefly on Coconut in Karur district was noticed one year ago and its intensity varies from season to season. In order to bring the pest population below manageable level, we have planned to demonstrate your entomopathogen - *Isaria fumosorosea* (ICAR-NBAIR pfu-5) among farmers on 8.10.2021 morning at Pazhmapuram village, K. Paramathy block. In this regard, we request you to kind depute your Scientist (Entomology) Dr K Selvaraj to handle a technical session and demonstrate the application techniques of the entomopathogen. Looking forward to your kind cooperation.

Thanking You

Yours faithfully
J. Diraviam
